PROFESSIONAL SUMMARY

Senior Product Manager with **7+ years** of cross-functional experience spanning software engineering, business analytics, and product leadership. Currently drives client onboarding and M&A automation products at ADP for the US market. Dual post-graduate background in **AI/ML (M.Tech, BITS Pilani)** and **Business Strategy (MBA, IIM Nagpur)**, with hands-on expertise in LLM integrations, RAG pipelines, Model Context Protocol (MCP), and Agile product delivery. Track record of **$2M in new recurring annual revenue** and **80%+ YoY mobile adoption growth**, and of translating complex technical capabilities into market-ready products.

CORE SKILLS

Product Management: Product Strategy, Roadmap Planning, Go-to-Market (GTM) Strategy, OKRs, Stakeholder Management, Business Requirements, Agile/Scrum, Backlog Management, Cross-Functional Leadership, Technical Product Management

AI & Machine Learning: LLM Integrations (GPT-5, Llama, Claude), Retrieval-Augmented Generation (RAG), Vector Databases, Prompt Engineering and Evaluation, OCR and AI Data Extraction, Model Context Protocol (MCP), Agentic Workflows

Technical: REST API Design, Webhooks, System Integration, SQL, Data Pipelines, Python, Java, Spring Boot, R, Selenium, Test Automation, AWS, CI/CD, SDLC Automation

PROFESSIONAL EXPERIENCE

ADP (Automatic Data Processing), Hyderabad — April 2022 – Present

Senior Product Manager II | Workforce Now (WFN) Enterprise / Launchpad — April 2025 – Present

- Lead product for **Launchpad**, the client onboarding and implementation module of Workforce Now, managing a cross-functional squad and the full product lifecycle.
- Building an internal **M&A automation** product for automated data movement across Payroll, Time, and Tax domains; projected to reduce manual migration effort by **over 50%**.
- Serve as sole Product Manager for a Resource and Backlog Management module integrated with CRM and billing systems, improving capacity planning across delivery teams.

Senior Product Manager | Enterprise Benefits Technology — April 2022 – April 2025

- Created a new sales channel for Open Enrollment support, generating **$2M in new recurring annual revenue**.
- Led the Employee Communications channel of the Benefits module; enhancements grew ADP Mobile adoption by **80%+ year over year** and added **500K+ active sessions** per month.
- Spearheaded a digitization initiative using AI-based OCR and data extraction, reducing inbound support call volume by **15%**.
- Integrated an AI-enabled Benefits Decision Support Platform with an external AI vendor for the US market, expanding the value proposition for **20K+ clients**.

Analytics Quad 4 (AQ4) — April 2021 – June 2021

Business Analyst Intern

- Designed a lead qualification process and campaign tracking framework, improving lead conversion by nearly **14%**.
- Evaluated and implemented proofs of concept for new software to optimize the sales pipeline; researched new technologies and their compatibility with AQ4 solutions.

Fidelity Investments, Bangalore July 2017 – July 2020

Software Engineer | Cloud & Platform Engineering

- Built two self-service automation frameworks and data analysis tools adopted by **8 teams**, saving **20+ hours per week** of manual effort.
- Automated data pipelines, configuration loading, and validation processes, reducing pipeline errors by **30%**.
- Contributed as a core team member to migrating clients from legacy on-premise platforms to cloud-enabled architecture.
- Delivered QA coverage for the Defined Benefit squad through process, batch, and test automation frameworks.

SELECTED AI PROJECTS

- **Healthcare Taxation AI Assistant (M.Tech Dissertation, BITS Pilani):** Built a RAG-based agentic system to interpret US federal and state healthcare tax law, using HyDE and query transformations to improve retrieval accuracy. Tools: LlamaIndex, Streamlit, vector databases, GPT-4, Llama 3.
- **Tavern & Tomb, AI Dungeon Master Web RPG:** Built a browser-based multiplayer game with multi-provider LLM support (Gemini, OpenAI, Claude), voice narration, and character management. Tools: Node.js, Express, JavaScript.

EDUCATION

M.Tech in Artificial Intelligence & Machine Learning Oct 2023 – Oct 2025

Birla Institute of Technology & Science (BITS), Pilani | Work Integrated Learning Programme (WILP)

Dissertation: Retrieval Augmented Generation (RAG) with GPT-4 & Llama3 for Healthcare Taxation

MBA in Decision Sciences & Information Systems | Strategy July 2020 – March 2022

Indian Institute of Management (IIM) Nagpur

Positions of responsibility: Coordinator, E-Cell; Executive Member, Indo-Japan Research Centre; Student Affairs Council Representative; Executive Member, Events Committee

B.E. in Electronics & Communication Engineering Aug 2013 – June 2017

Ramaiah Institute of Technology, Bangalore

Presented research paper on a Fall Detection Sensor at ICIoTCT 2017 (MNIT Jaipur); grant awarded by IISc Bangalore and KSCST. 1st Place, Hackatronics (IEEE-RIT).

CERTIFICATIONS

- Lean Six Sigma Green Belt (Nov 2020 – Present)
- AWS Certified Developer – Associate (Sept 2019 – Sept 2022, expired)

AWARDS & INITIATIVES

- **ADP Recognition:** AI Torchbearer; Star of the Month; Consistent Performer Award
- **Community Leadership:** Lead, Branding & Communications track, ADP Product Management Community
- **Fidelity Recognition:** 'You've Earned It' Award for technical competency in 3-tiered application suite design and client focus
